Chief Secretary to the Govt. of Mysore.

Sir,

I have the honour to submit herewith a copy of letter C. No.1929/19-11/Cert. of the 30th August 1919, from the Director of Civil Supplies, Madras, received to-day in regard to the arrangements for interchange of traffic between the Madras Presidency and the Mysore State during the month of September 1919 and to request that the proposed arrangements may be sanctioned. In anticipation of the approval of Government, I am requesting the Deputy Commissioner, Mysore, to allow export of horsegram to Malabar as requested in the latter part of para 2 of Mr. Moir's letter.

I have the honour to be,

Sir,

Your most obedient servant,

Food Controller & Director
of Civil Supplies in Mysore.

KM/MPH.

Copy of letter No. C. 1929/19-11/cert. dated 30th August 1919 from the Director of Civil Supplies, Madras, to the Director of Civil Supplies in Mysore, Bangalore.

I have the honour to address you with reference to the interchange of food grains between the Mysore State and the Madras Presidency the present arrangements regarding which expire at the end of the current month.

2. As regards the arrangements in respect of the Malabar-Wynad I have consulted the Collector who reports that as against the present allotment of 30 tons of ragi and 6 tons of horsegram his requirements will be asfollows for the months of September and October:--

	Ragi tons	Horsegram tons
For the Wynad Planters' Association	20	3
For the District Forest Officer North Malabar	--	4

a total of 20 tons ragi and 7 tons of horsegram. It is very important that the horsegram for the District Forest Officer should be supplied at the earliest possible date. I understand from the Collector that a permit which he issued for four tons for September is with the Deputy Commissioner of Mysore and is awaitaing his countersignature pending settlement of the arrangements for September. I shall be grateful if you can see your way to authorise the Deputy Commissioner to permit this export at once in advance of the agreement so that there may be no break in the supplies for the forest elephants.

3. As regards the Nilgris District the Collector is under the present agreement allowed to draw 60 tons of ragi and 30 tons of rice per week for Gudalur or 260 and 130 tons per month respectively a total of 390 tons. He recommends that this arrangement should be continued and in that recommendation I concur.

4. At present I am allowed to draw 574 tons of horsegram per month from centres of which you give me intimation. This makes a total of 1,000 tons of grain rice, ragi and horsegram drawn from Mysore in return for which you are allowed to draw 1,000 tons of rice, 700 tons from the Kistna District and 300 from the Nellore District. Owing to the heavy drain from the Kistna District which renders it necessary to reduce exports from that district in September and to the increasing shortage of supplies in the Nellore, I regret I am no longer in a positionto guarantee 1,000 tons of rice fo for export to Mysore for September and am compelled to propose that the mutual export should be reduced to a total of 800 tons. The arrangement will then stand as follows:--

Malabar-Wynad will receive 20 tons ragi and 7 tons of horsegram, the Nilgris District 260 tons ragi and 130 tons rice and the Director of Civil Supplies, Madras, will draw 383 tons horsegram from Mysore. The Director of Civil Supplies Mysore will draw 800 tons rice in return of which I shall endeavour to arrange that 650 tons will come from the Kistna District and 150 tons from the Nellore District.

5. I would at the same time suggest that the arrangement in respect of special cases such as that of the Hosur Co-operative Society should be renewed. This is referred to in section (5) of the present agreement as set forth in the notes of discussion at the meeting held at Bangalore on 11th July. I would also suggest that the arrangements referred to in paras 7 and 8 of that note should continue in force.

6. As regards the term for which the agreement so revised should remain in force it seems to me inadvisable for the present to look beyond the month of September. It is not possible for me at present to estimate what the position in this Presidency will b

in October or for how long after September it will be necessary to regulate import and export between the Mysore State and the Madras Presidency by reciprocal agreements. I would propose therefore that it should be regarded for the present as being restricted to the month of September. I should be grateful for any indication you may be able to give us to the period for which restrictions are likely to be necessary with reference to conditions in the Mysore State.

7. I would have suggested that we should meet to discuss these proposals but I have to proceed at once to the West Coast and do not expect to return to Madras for a week but as no new principles are involved you may not regard personal discussions as essential. Should you however desire a meeting I shall endeavour to arrange one on my return.

I have the honor to address you with reference to the interchange of food grains between the Mysore State and the Madras Presidency, the present arrangements regarding which expire at the end of the current month.

He recommends that this arrangement should be continued and in that recommendation I concur.

4. At present I am allowed to draw 574 tons of horse gram per month from centres of which you give me intimation. This makes a total of 1,000 tons of grain rice, ragi and horse gram drawn from Mysore in return for which you are allowed to draw 1,000 tons of rice, 700 tons from the Krishna District and 300 from the Nellore District. Owing to the heavy drain from the Krishna District which renders it necessary to reduce exports from that district in September and to the increasing shortage of supplies in the Nellore, I regret I am no longer in a position to guarantee 1,000 tons of rice for export to Mysore for September and am compelled to propose that the mutual export should be reduced to a total of 800 tons. Sir,

I have the honour to submit enclosed for the information of Government copy of a telegram dated the 29th ultimo from the Collector, Nilgiris, Ootacamund, stating that for the current week the Tahsildar, Gudalur may be permitted to take 300 pallas jolam instead of Ragi from the Mysore District. On receipt of this telegram, I wired to Deputy Commissioner, Mysore District to allow the quantity of jola specified against a similar quantity of ragi if there is no objection and intimated that fact to the Collector also by wire. The Deputy Commissioner, Mysore District sent me a telegram on the 30th stating that he has no objection to the proposed arrangement and I have also intimated this to the Collector.

I have the honour to be,
Sir,
Your most obedient servant
